THE DALLES Nov. 15, 1994

In the foreground is The Dalles Dam. In the midground is The Dalles Bridge. In the background is the city of The Dalles and 11,235 ft. Mt. Hood. from: Vera Wilson

Dear Pam,
Thank you and 2880 Five Mile Rd.
you dept. (EPA) for the 97058
public meeting Nov 14 in
Hood River, OR - I attended
and learned a lot about what
the future will hold
for us! My main concern
will be The Columbia River
as it may carry wastes
not only from The Hanford
area but all businesses along
the route, including our area.
You answered my questions
about continuing usage of the
Arlington (OR) Waste dump site.
